Erro do sistema durante a preparação da transferência de dados
Procedimento
Tente iniciar a transferência de dados novamente mais tarde.
Se o erro persistir, efetue o seguinte:
Para sistemas cloud, contate seu suporte técnico.
Para sistemas On-Premise, verifique o log de aplicação para informações detalhadas. Se mesmo assim o problema não puder ser resolvido, contate seu suporte técnico.

2723019 - CALL_FUNCTION_NOT_FOUND dump occurs during migration
Version 4 from 16.04.2021 in English
Show Changes
Description
Product
This document refers to
Attributes
Languages
Rate This Document
Reproducing the Issue
Start migration in LTMC.
Cause
This dump typically occurs if the same Migration Object (Migration project) is used for different clients.
The name of the Function Module which is generated for a Migration Object contains the client number, so it needs to be generated on each client where it is planned to be used.
Resolution
1, Implement the SAP Note 2717386 if the note is valid.
2, Use one project for one client only. (It is possible to copy a Migration Object to other client by LTMOM.)
3, Workaround:
1. Start transaction LTMOM.
2. Select the Migration object.
3. Switch to the edit mode.
4. Generate the runtime object.

Como exportar proyectos

2020

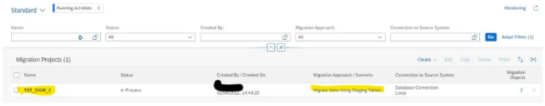

https://blogs.sap.com/2021/10/06/changes-to-migration-object-modeler-ltmom-in-2020/

2021

https://www.erpqna.com/how-to-migrate-hr-objects-by-migration-object-modeler-tcodeltmom/

Detailed description in this step is skipped since it is the same as using the standard migration object.

Please create a project(staging table).

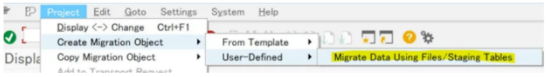

Step 2: Create Migrate Object and Assign Function Module

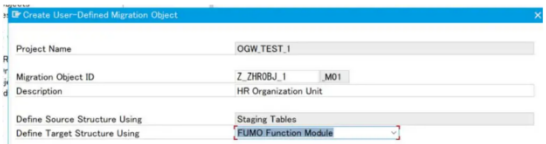

Log on SAP GUI and access Tcode: LTMOM.

Open the project that you created in step1.

Choose the following menu.

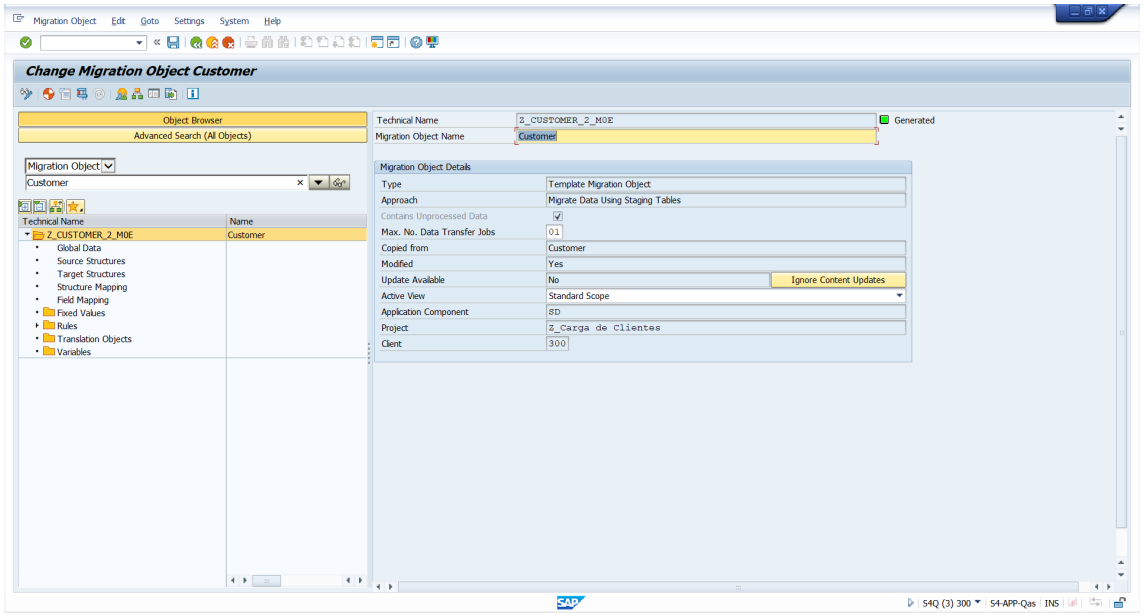

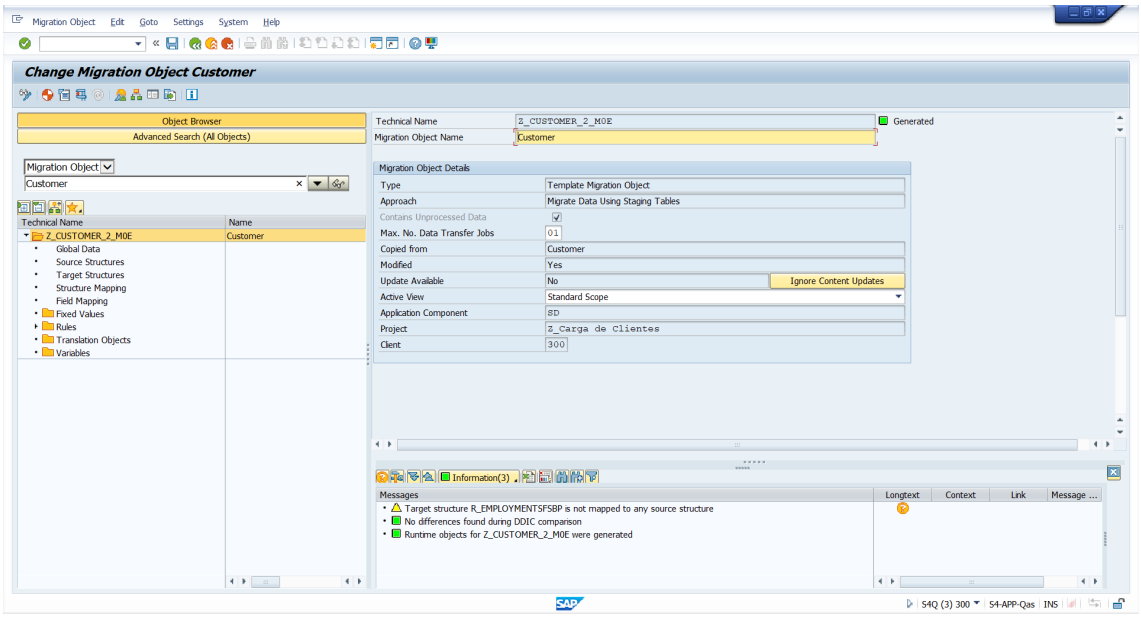

Enter Migration Object ID, Description. Choose "FUMO" in Define Target Structure as follows.

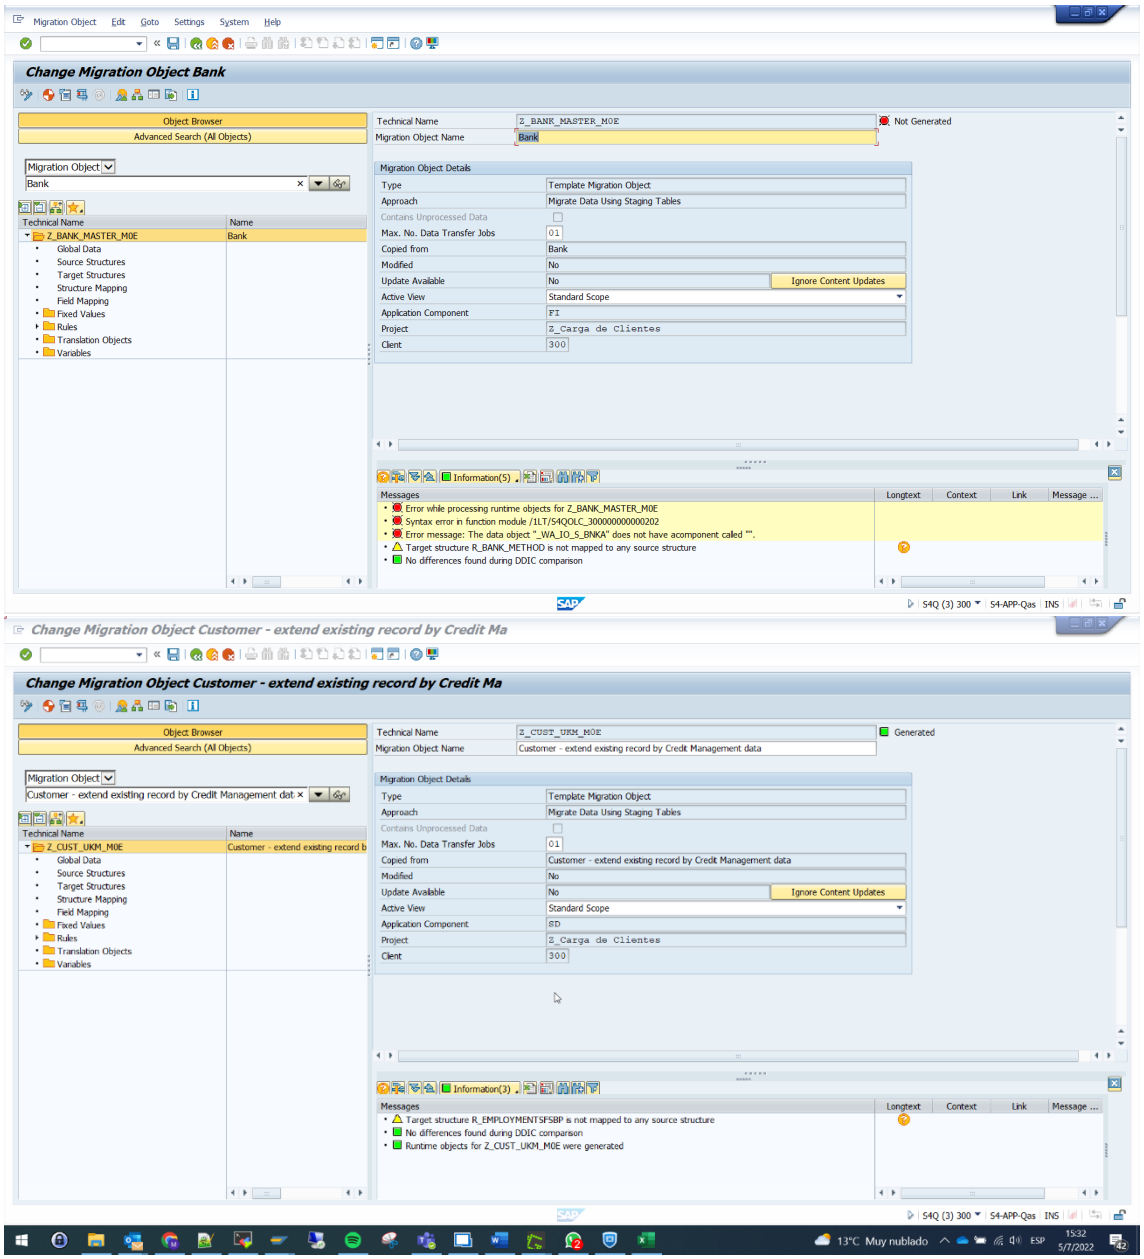

April 2019 (17)
March 2019 (23)
February 2019 (6)
January 2019 (18)
December 2018 (15)
November 2018 (15)
